

GIS for Teachers 2-Day Workshop

Summer Professional Development Opportunity

Who should attend?? Teachers (K-12 grade) that want to learn to use Geographic Information Systems (GIS) and Global Positioning Systems (GPS) in their classrooms. This workshop will include lecture and hands-on training in these exciting technologies!

Effective use of GIS in a school setting it means engaging in active learning with significant thinking. GIS can affect the whole educational experience, for students, teachers, and the community.

You will receive:

- Workbook
- Lesson Plan to take with you
- Certificate of Completion
- Data DVD
