

GIS for Teachers

Table Contents

MODULE I:

Getting Started with ArcGIS 9.2

Introduction to ArcMap, ArcToolbox, and ArcCatalog.....	1
• Section 1: Introduction to Arc Catalog.....	5
• Section 2: Introduction to Viewing Data in ArcMap.....	11
• Section 3: Introduction to ArcToolbox.....	16
• Introduction to GIS Exercise.....	19

Manipulating Display Parameters in ArcMap

• Changing Simple Feature Symbology.....	33
• Labeling Features and Adding Text to Features.....	38
• Changing a Features Symbology Using Categorical Attributes.....	46
• Changing Raster Symbology.....	48
• Displaying Quantitative Data.....	51

Map Projection & Coordinate Systems

• Effects of Map Projections.....	57
• Examining Spheroids.....	64

Map Making and Printing Maps Using ArcGIS

• Use a Map Template to Create a Map.....	71
• Creating Maps without Using a Template.....	77

MODULE II:

Analyzing Spatial Data

Querying Data in ArcMap

○ Using the Identify Tool.....	91
○ Using the Select Features Tool Using the Find Tool.....	96
○ Selecting Feature by Attribute.....	98
• Selecting Features by Location.....	100
• Creating a Layer from a Selection.....	103

Preparing Data for Analysis

• Selecting Features.....	105
• Clipping Features.....	110
• Dissolving Features.....	114
• Exporting Data.....	116
• Projecting and Defining the Coordinate System/Spatial Reference.....	117

Analyzing Spatial Data

- Buffering Features.....124
- Adding a Field to an Attribute Table.....127
- Overlaying Data.....130
- Intersect Overlay.....133
- Calculating Attribute Values.....135

Raster Reclassification

- Covert vector to raster.....145
- Reclassify an elevation grid153
- Reclassify data to a common scale.....163

Manipulating Vector Data

- Simple Heads Up Digitizing.....167
- Point and Stream Mode Digitizing.....175

MODULE III:

Creating A Personal Geodatabase

- Creating Personal Geodatabase181
- Creating Feature Classes.....187

Geocoding

- Geocoding Part I: How to Create an Address Locator Service.....191
- Geocoding Part II: How to Match Addresses.....199
- Geocoding Part III: How to Re-match Un-Matched Addresses.....209
- Adding XY Data.....221

MODULE IV:

Crime Mapping

- Crime Mapping I: Estimate Density for Crimes.....229
- Crime Mapping II: Estimate Density Using Attributes.....237

Census Geography

- Downloading Census Data.....247
- Find Sites for A Potential Youth Center.....257

Appendix: Quick Reference

- Appendix A: ArcGIS Supported Data Formats.....275
- Appendix B: Organization and Data Sources.....277
- Appendix C: Standard Toolbars.....283
